About the Course

Health care has seen tremendous advancements in the past. "The demand for professionally trained personnel in the large and growing field of allied health sciences has transferred geographical boundaries both developed and developing countries turning to India for qualified people.

India also is witnessing a growing demand for trained allied health professionals with government and private medical institutions engaged in providing with the necessary personnel. Employment opportunities are therefore available in plenty, so also the remuneration is attractive. What is needed is to make concerted efforts to provide competent paramedical graduates with the required training to take on the challenging world of healthcare.

It is with this background that Institute of Ophthalmology, Joseph Eye Hospital, Tiruchirappalli, South India has developed paramedical courses that combine paramedical education with a basic knowledge and training in it. This programmer aims at developing competence and provide students with facilities to perform their vocations immediately after their graduation.

Profile of the Institution

The Institute of Ophthalmology, Joseph Eye Hospital, Tiruchirapalli, South India is a nonprofit, voluntary Christian Institution. The main aim is to impart education of the highest standards in the arts and science of Ophthalmic medicine and surgery and to equip the persons involved with the spirit of service in relieving the suffering and promoting the eye health in full recognition of the moral and spiritual basis of life, in relation to health.

Hospital founded in 1934 and the Institute founded in 1983 caters to the community at large, irrespective of the caste, creed and affordability.

The hospital out-patient department has apart from general Ophthalmology, sub-specialty clinics for Glaucoma, Retina-vitreous, Cornea, Squint, Contact lenses, Pediatric Ophthalmology, Neuro ophthalmology, Low Vision and Plastic surgery with state of the art investigative and management equipments, updated infrastructure and expertise and sophisticated well equipped ophthalmic theatres to perform wide range of ophthalmic surgeries.

Under high volume, high quality, and low cost outreach programme, 25,000 operations are done every year for the restoration of sight. Over 3, 00,000 people are treated annually for various eye ailments. School screening and mobile eye camps are conducted every year. In addition to curative eye care, JEH is also involved in rehabilitation of blind people in three avenues of services, Bishop Diehl home for the Blind – institutionalized training centre, Community Based Rehabilitation, Integrated education for the blind and disabled children.

The institute with such abundant clinical material, competent faculty, adequate infrastructure, bed strength of 150, qualified staff, updated and state of the art equipments and teaching facilities, JEH has been involved in manpower development of various categories of personnel from 1978.

Since then, the institute has been training batches of Post graduates in Ophthalmology, Undergraduate in Optometry, Ophthalmic Technicians, Camp Organizers and other paramedical personnel.
